DETAILED ACTION

Drawings

The drawings filed on 8-24-2001 are acceptable subject to correction of the informalities indicated on the attached "Notice of Draftperson's Patent Drawing Review," PTO-948. In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.

Allowable Subject Matter

Claims 1-56 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

In light of the applicant's remarks and amendment on 5-9-03 the following claims are allowed.

Regarding claims 1 and 27, the prior art fails to disclose or make obvious a method for *in situ* monitoring of molten polycarbonate polymer and/or oligomer wherein the method comprises a light source, a fiber optic transmission probe that transmits monochromatic light to irradiate a sample and collects light transmitted from the sample, a spectrophotometer that monitors UV/visible light absorbed by the sample and a data analysis system that correlates absorbance to a predetermined reaction component in the molten polycarbonate polymer and/or oligomer sample and in combination with the other recited limitations of claims 1 and 27.

Claims 2-26 and 28-53 are allowed by the virtue of dependency on allowed claims 1 and 27.

Art Unit: 2877

In light of the applicant's remarks and amendment on 5-9-03 the following claims are allowed.

Regarding claims 54-56, the prior art fails to disclose or make obvious a method for real time monitoring of molten polycarbonate composition during production wherein the method comprises a probe(maintaining constant temperature) in optical contact with a stream of polymer and/or oligomer, irradiating the sample with monochromatic radiation, monitoring UV/visible light absorbed by the sample and correlating the light absorbed by the irradiated sample to levels of Fries products and phenolic end-groups and in combination with the other recited limitations of claims 54-56.

Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.
